Event Overview

Book your place at the very first Decarbonising Dublin Summit

We are delighted to announce that the Decarbonising Dublin Summit will take place for the very first time on Thursday, 14th November this year.

This will be the first event to focus solely on the Dublin region and will explore the challenges and opportunities for the capital to meet its climate and energy targets towards 2030 and 2050, along with highlighting best practice case studies to draw inspiration from.

Organised independently by Dublin's not-for-profit energy agency Codema, the Decarbonising Dublin Summit sets out to foster engaging and insightful discussion on how Dublin can become a leading European capital on climate mitigation. This event also offers a great opportunity to develop partnerships with like-minded stakeholders and communities looking to take action.

Programme Schedule

8:30 AM

EVENT REGISTRATION

Event sign-in, tea and coffee

SESSION 1

WELCOME AND KEYNOTE ADDRESS

Why Attend this Event?

Be part of the discussion on key challenges and solutions for Dublin

Attending the Decarbonising Dublin Summit provides an important platform to share best-practice methods to reduce emissions in Dublin and encourage replication across all sectors. It also presents a great opportunity to network and collaborate with like-minded stakeholders and communities looking to take action.

Why Attend?

Network with key stakeholders in Dublin's climate mitigation sector

Opportunity to form much-needed collaboration and partnerships

Learn from best-practice examples in the Dublin region

Discuss challenges and solutions to reducing Dublin's emissions

About Codema

We are Codema - Dublin's Energy Agency, a not-for-profit company founded in 1997 to work on behalf of Dublin's Local Authorities to enact public good in the area of energy and climate mitigation.

Our work focuses on innovative and inclusive local-level energy and climate mitigation research, planning, engagement and project delivery in the Dublin region.

We have over 25 years experience in this sector and our expert, multidisciplinary team provides an end-to-end service to deliver innovative solutions on the ground. Because our work focuses on adopting new solutions and innovation, we have developed a unique set of skills within our team, and we constantly upskill, creating experts in areas that are traditionally lacking in Ireland.

We are driven by our vision to positively impact people's lives locally, while addressing the environmental damage caused by climate change at a global scale. We believe we can do this by improving the way we produce and use energy locally, while benefiting the people of Dublin.

Vision

Codema's vision is for a better quality of life for all citizens through a fair and inclusive transition to a low-carbon society.

Mission

Our mission is to accelerate Dublin's low-carbon transition through innovative and inclusive local-level energy and climate change research, planning, engagement and project delivery, in order to mitigate the effects of climate change and improve the lives of citizens.

How to Register

Please note that this event is now **sold out**.
